

## Jan de Rijk LTL Schedule Europe

In case of higher volumes/kgs (>6ldms) transit time can be discussed

Active from 1st of November 2024

### Conditions:

#### CMR Conditions apply

- \* Sequence of the trailer is determined by our planned route and communicated with the ground handlers.
- \* When volumes exceed what was booked, this might impact our delivery of your cargo, as we committed to loading other shipments as well.
- \* **Pharma** and **TSR1** (secured) should only be booked **FTL (Full Truckload)**
- \* **Export on LTL discouraged**, as there are many variables in these trips. Delays are unfortunate and missing a flight can be costly.
- \* Please **book in advance - (at least 24hrs before loading)**, to ensure we have a space available
- \* **Booking deadlines** for same-day evening loading are at **12 PM (noon)**, and must match the allocated loading slot.
- \* You can **track & trace** your shipment via **J-Connect**, where you can also find your **Proof of Delivery (POD)**
- \* During seasonal holidays (e.g. **Christmas, New Year and Easter**) an alternative schedule will be communicated by Jan de Rijk.
